

Shalfleet Village Hall -
Maintenance Report.
for meeting on 9th September 2022.

Repairs.

No repairs undertaken in this period, although the front door stay has broken away from the wall last weekend and will be reattached later this month.

Improvements.

A couple of oven trays were added to the kitchen equipment.

A sound level meter was purchased to measure the decibel levels of the wedding party music.

Two new marquees were purchased to replace the previous ones which had developed a tear in the roof fabric.

Other.

Payment has been made for the Brown Sign indicating St.Michael's church on the corner of Church Lane. At the time of writing I have not yet been informed of the installation date.

The fire alarm had its six monthly service.

At long last the Annexe has been tidied and all items are back in their designated space.
