

**Shalfleet Village Hall -**  
**Maintenance Report.**  
**for SHS meeting on 10th March 2023.**

**Repairs.**

The light bulb for the outside light above the entrance step was replaced.  
The ceramic tap washers for kitchen sink were replaced.

**Improvements.**

The new storage unit for the toys used by the weekly Stay & Play group was purchased and assembled. It has been located under the window at the far end of the hall and no reported issues from any of the other hirers.

**Other.**

The outside planters have been emptied of last years dead flowers and refilled with new compost and some primroses from our local Ningwood nursery.  
I have asked Peter Carter to meet at the Hall when he is next in the area to arrange a date for the Hall floor renovation and to assess best way to combat the condensation problem of the kitchen.

Michael.
